UNAUDITED NOTES TO FINANCIAL STATEMENTS

16. COMMENTARY ON CURRENT YEAR PROSPECTS

The Company see a robust improvement in the healthcare sector as the country reopen its economy. Healthcare is expected to lead the consumerism surge as jobs are created and retail reopen. Sales in the next two quarters will see an increase. Margins may be less predictable.

The damping factor will be the logistics bottleneck and record high sea freight from China or any part of the world. Shipping capacity constraints, ports closures at exporting and importing countries are creating a highly unpredictable supply chain schedule. Logistics related cost has increased and may further increase up to 5 folds in absolute terms compared to preCovid shipping costs. This will impact margins from both direct seafreight or emergency airfreight when the delays are unacceptable.

The company has taken several steps to increase purchases and inventory to avoid non-delivery defaults to hospitals. This has help the company to ride out the difficult seafreight situation.

17. UTILISATION OF PROCEEDS
